CIRCULAR.

THE Works of the HONGKONG AND CHINA GAS Co., being fast approaching completion, the Directors are desirous on this the first introduction of Gas into the Colony to draw the attention of the inhabitants to the advantages to be derived by its use over all other methods of lighting, not only with respect to brilliancy, cleanliness, and safety—but from economy and permanency.

The following are a few of the inducements for the adoption of Gas, when compared with Oil or Candles as ascertained in every part of the Globe where works have been established :—

1st.—It is safer than Oil or Candles as there are no Wicks or Sparks.

2nd.—No injury to Carpets or Furniture by the dropping of oil.

3rd.—No Waste by Carelessness or dishonest servants.

4th.—It is lighted, increased, diminished or extinguished in a moments time.

5th.—The light from a Gas Burner consuming 5 ft. of Gas per hour is equal to 12 Candles, and will illuminate a room to the same extent. Houses can be either partially or wholly lighted at once, and can have extra lights affixed at any future time. The yearly cost being in exact proportion to the number of burners required.

The Manager will shortly prepare for inspection in the Gas Office, Queen's Road, a great variety of carefully selected Chandeliers fittings, &c., of various designs, from these choice can be made as may be deemed most suitable for the buildings proposed to be lighted up.

Advice will be given as to rendering existing Chandeliers and other fittings available for Gas and estimates of the cost for complete or partial lighting of any building, however large or small can speedily be furnished.

The Company guarantee that the work executed by their employes shall be in every respect efficient and free from every danger.

The Directors in fixing the price of Gas, viz., $5 per thousand cubic feet, trust to ensure its introduction speedily into every household and this moderate price will they believe ultimately extend its use to the principal Cities of China.

All accounts against the Company, must be presented for examination on or before every Friday, and payments will be made for same on application any Saturday, between the hours of 10 and 12 A.M., at the Company's Town Office, over the "Hongkong Dispensary."

THE letter signed *A Subscriber*, which will be found in its proper place, is well worthy the perusal of our readers. There cannot be a doubt in the mind of any reasonable man, that *suppressio veri* and *suggestio falsi* are the principles which pervade the administration of this colony. These are deemed by all political moralists, to be official crimes. A system conducted on such a foundation must come to grief. We maintain that the *responsibility* which should be attached to the government of this colony, is deliberately and designedly avoided by the habitual commission of these official crimes. Instead of the governing powers holding themselves responsible to the people whom they govern, and who by the payment of taxes maintain the government, they studiously conceal their public acts, to the end that they may be enabled to misrepresent matters to the Secretary of State for the colonies, to whom alone they fancy themselves responsible, and indeed, in the absence of all public spirit here, to whom they alone are responsible, under the fraudulent system established.

We do not desire to split straws with our correspondent, but he has placed too literal a meaning on some of our statements. However we stand corrected and have to return thanks accordingly. To search after the truth of public occurrences here, where all is favoritism and mismanagement is no small matter, and we feel gratified at receiving assistance.

On one point our correspondent agreeably surprizes us. Mr. Storey is a highly practical and experienced man, and a steady goer to boot. He is the man who should have been the acting Surveyor General. We understood that he had left the department, but we see from A Subscriber's letter, that he is still attached to the outdoor branch of it. We hear excellent accounts of Mr. Storey, and are really happy in find that his services have been secured.

Our correspondent M. O. is a little in error about the St. Paul's dust bin. It cannot impregnate the water, because none but waste water can be influenced by it. The practice of allowing the dust bins to be ransacked is most filthy and disgusting, but still that is only a small part of the nuisances we have to submit to. We are averse to the introduction of anything of a personal nature in our columns, because they are entirely out of place; nevertheless as indicative of the municipal abuses which do here exist, we feel tempted to embrace this opportunity of stating our case.

If we dwelt in the *back slums*, we should have no occasion to complain of what we might reasonably expect. But our establishment is beautifully situated in a fine central position, in the immediate proximity of five road ends. Within twenty five feet from the front door is a *water delivery stand*, which appears to be the only place within a large area, where the Chinese can obtain water—for the fighting and squabbling which takes place repeatedly is really *tremendous*—Why the water cannot be delivered in the Chinese quarter and so save the poor people the trouble of carrying it so far we do not know. The thoroughfares near the tank are kept in consequence constantly in a state of puddle, which is annoying to Europeans in summer costume.

Next comes the dust bin, which seems to be ransacked daily, emitting a stench absolutely offensive.

Then there is a small market under the trees and opposite our office window! The place seems a sort of scandal point, for most of the water carriers, whilst awaiting their turn, hold a sort of a debate with the market people. Noisy gambling goes on pretty often, and sometimes a little bargaining between vendors of cakes, and members of the rising generation who have by some means become the proprietors of bits of brass, bottles, broken glass old iron, other metal, or bones &c.

In addition to all these nuisances we have hitherto had to submit for a whole year to the noise consequent on the building of the German club. The building could easily have been finished in four months, but the workmen were nearly always playing, which greatly increased the annoyance, especially at night. The thoroughfare was greatly interrupted all this time, and every stone used was cut in the street on which the building stands, instead of at the quarries. Surely under such circumstances, a reasonable time and no more should be given by government to a contractor, and after that he should be fined for interrupting the thoroughfare.

We mention these things to illustrate the state of affairs here. In the very centre of the European part of the town, such nuisances as we have faintly described, should be abated.

THE *Azof* arrived from Shanghai yesterday bringing us papers to the 3rd inst. The following important intelligence regarding Gordon's movements, is rather exciting.

From the North China Herald.
30th April.

Gordon has commenced the siege of Changchow most successfully, by the capture of all the stockades outside the west gate, and intends we believe, to assault the city itself very shortly. Some severe fighting has taken place, in which the *Hyson* particularly distinguished herself. An attack was made on her by the rebels; but she plied them with grape so effectually that they were driven off with great loss. Colonel Tapp, commanding Gordon's artillery was killed, under melancholy circumstances by his own men, a few days ago. He and Gordon with a small escort were engaged in laying guns against the walls, when a piquet mistook them for a body of rebels and fired into them at point blank range, killing Colonel Tapp and three men and wounding five others. This officer's death will be a serious loss to Gordon.

From the Daily Issue of same.
3rd May.

We regret to learn that Colonel Gordon has experienced a severe reverse before Chang-chow. Having completed his preparations and widened the breaches made by the Imperialists, he ordered an assault on the 28th ultimo; but the storming party encountered such desperate resistance that it was compelled to retire, after a severe struggle, with a loss of 300 men and 27 officers killed and wounded. The officers, we learn, displayed great gallantry, but the men at length hesitated to face the shower of missiles which was hurled on them, and the assault was abandoned. Gordon retains his position before the city, which is closely beleaguered on all sides, and will make another attempt to carry it at an early date. The rebels are now evidently fighting with the courage of despair. They have been driven out of Chekeing; they hold only one town in Ngan-wei, and four in Kiang-su. After Changchow has fallen, Nankin will be their only remaining city, which is likely to offer any serious resistance to the Imperialists troops, and its reduction is only a question of time. This time the rebel leaders will naturally endeavour to prolong by every means in their power, and we anticipate that the closing struggles will be the most severely contested that have yet been fought.

LETTERS TO THE EDITOR.

To the Editor of the "Daily Press.

SIR,—As a daily reader of your paper, I have occasionally noticed of late some slight inaccuracies, and as I am impressed with the idea that your object is to expose the truth, I trust you will stand corrected in a proper spirit.

In your issue of 30th November last, you stated that "Mr. Storey remains in the door department of the Surveyor General's Office"—whereas at that date he had been instructed to join the *outdoor* department from the 31st December following.

Again, on the 9th Ulto. you referred to the Chancery Lane retaining wall and gave one of our sappers the credit "of such vigilant supervision, that it has stood to the present hour"—whereas, the credit is, I know, due to Mr. Storey, since appointed, as a reward for his services, to the outdoor department above named.

In taking a retrospective glance at Governor Robinson's career in Hongkong on the 11th ulto. you erroneously stated that one of his first acts was to get his salary raised 50 per cent. A friend of mine who should know the particulars of this feat, complains that you did not do the Governor justice in the matter, as the result of the *coup* was absolutely 66 per cent.

You then stated "His next act was to have "his bedrooms furnished at the expense of the "colony, which outlay he also managed to get "passed surreptitiously." You appear to be correct as far as you go, but I am credibly informed and do verily believe, that Governor Robinson was compelled to disgorge the amount in the first instance—although he managed subsequently to obtain a *special allowance under the circumstances*. I have heard and I believe that the honesty and independence of the Colonial Treasurer in this matter, was the cause of Governor Robinson's ill feeling towards him, and resulted in Mr Forth being passed over when the office of Colonial Secretary fell temporarily vacant, by Mr Mercer going home sick to look after the appointment of Governor of Singapore.

Regarding the plot of ground behind the Union Chapel. If Governor Robinson promised the property to Dr. Legge, there must either have been some condition attached, or otherwise the Governor broke his word. It is probable that there was some *sub rosa* arrangement between the public spirited Knight, and the exiguat divine—because it is certain that Dr. Legge made an application for the ground in question; that the Surveyor General resisted it, and that it was refused.

On the 1st Inst. you state that were the tories to return to power, an exposure would immediately ensue of the various acts of maladministration, now concealed from the public of this colony—and you go on to say that some "explanation "would be afforded as to the reasons why the oil "[not gas] lamps are being placed in such convenient proximity to certain private residences "of officials." I presume you allude to the two lamps *within* the Albany gardens. You might also have asked why certain water tanks are in the same manner so contiguous and convenient to a certain other official residence 4 trifle higher up? I hear that there are standing orders to the effect that these said tanks shall be charged every morning. You should step up and take a look at these tanks; the sight will do you good.

Lastly, for the present, you further state in the same issue. "To be sure, the dear (very) "departed, much lamented" [by the Chinese government contractors, whose bills he would not pass] "Chas. St. Geo. Cleverly Esquire, did "put an elegant ceiling to the Court House." Now I have good reason to believe, in fact I am quite certain, that this ceiling was constructed during Mr Cleverly's absence from the colony on his consular duties—and that Mr Storey had the entire management of it. As a piece of patch work, it may do that gentleman credit, but I submit that he could have vaulted the ceiling and that he should have done so. Cheeseparing, as you call it, may have prevented him: the ceiling is safe and there is something like a proper finish upon it, so that an economical piece of patchwork is all that can be claimed.

Should you take my remarks in the spirit they are meant, I will be happy to assist you in your search for truth. It is evidently carefully concealed from you, and I consider your determined chase after it despite all your contemporary may say, does you infinite credit.—I am, Your obedient Servant,

A. SUBSCRIBER.

Hongkong 6th May, 1864.

To the Editor of the "Daily Press."

SIR,—Having occasion to pass through Wyndham Street several times a day, my attention has been unpleasantly directed, through the olfactory nerves, to a quantity of filth of every conceivable description, which is constantly being deposited in and removed from a receptacle, built apparently for the purpose by the Surveyor General, within a few feet of the upper Tank. I do not know to what department belongs the duty of looking to these matters, or I would suggest to the proper authorities the inexpediency of choosing for such a depot a place where it cannot fail to taint the water we are supposed to drink. As the summer advances the consequences are likely to be still more unpleasant, and I much fear that, although hitherto a strictly temperate man, I shall shortly be compelled, in default of obtaining a glass of clean water, to prefer in common with my neighbours "the cup that doth inebriate to that which only cheers."—Your obedient servant.
